

FEATURES

- **8 SWITCHED REAR MOUNTED AC OUTLETS - 4 WIDELY SPACED TO ALLOW USE OF “WALL WART” PLUGS.**
- **2 SLIDE-OUT/ADJUSTABLE SWIVEL RACK LIGHTS WITH DIMMER AND SEPARATE ON/OFF SWITCH.**
- **TOTAL LOAD 15 AMPS-1800 WATT (AT 120 VOLTS) POWER RATING. A FRONT PANEL 15 AMP CIRCUIT BREAKER WILL TRIP IF THE 15 AMP RATING IS EXCEEDED. PUSH TO RESET.**
- **SUPPLIED WITH TWO 7 WATT LAMPS.**
- **POWER SWITCH IS ILLUMINATED WHEN POWER IS ON.**
- **BUILT IN HIGH VOLTAGE VARISTOR (MOV) SURGE AND TRANSIENT SUPPRESSOR WITH A RFI/EMI INTERFERENCE FILTER HELPS PROTECT YOUR ELECTRONIC EQUIPMENT.**

The Power Conditioner and Rack Light protects your delicate electronic equipment by combining a high voltage varistor (MOV) surge and transient suppressor with a RFI/EMI interface filter. The fast-acting suppression circuit responds in less than a nanosecond, clamping transient voltages to safe levels. The filter works to prevent noise from fluorescent lights, certain dimmers, radio transmitters, and similar sources of “electronic pollution” from contaminating the AC line and from there, leaking into sensitive audio, video or computer circuits.

The lamps pull out easily and may be aimed to provide the best illumination for your equipment. Each lamp is supplied with a 7-watt night light bulb. Replacements are readily available at local hardware stores, or wherever household lightbulbs are sold.
